Subject: Updated Summary Reports for the December 2021 STAAR Administration
Date: Tuesday, January 25, 2022 9:18:51 AM

To the Superintendent, Education Service Center Director, and ESC and District Testing Coordinator Addressed:

This communication is to inform you of the availability of updated reports for the December 2021 State of Texas Assessments of Academic Readiness (STAAR[®]) end-of-course (EOC) assessments.

A labeling error was identified in the district- and campus-level summary reports provided on January 19, 2022. Due to a bug in the PDF code that generates the summary reports, Retesters were incorrectly labeled as First Time Testers in those locations where there were no first-time testers. The summary reports have been updated to show Retesters correctly labeled and are now posted to the secure inbox in the Test Information Distribution Engine (TIDE). The PDF code has also been fixed for future reporting.

This issue does **NOT** impact the reporting data provided on the reports or displayed in the analytic portal. The reporting data is correct.

For questions or assistance regarding the information in this communication, contact Texas Testing Support at 833-601-8821, TexasTestingSupport@cambiumassessment.com, or via [live chat at TexasAssessment.gov](#).
