

From: [CAI Texas Testing Communication](#)
Subject: May 16, 2022, Upcoming Texas Assessment Program Activities
Date: Monday, May 16, 2022 2:31:24 PM

To Education Service Center and District Staff Members:

This communication is to inform you of the following upcoming activities for the 2021–2022 Texas Assessment Program.

SPRING 2022 TELPAS ADMINISTRATION

Preliminary student results for the spring 2022 Texas English Language Proficiency Assessment System (TELPAS) administration will be available in the [Centralized Reporting System \(CRS\)](#) on **May 16, 2022**.

APRIL AND MAY 2022 STAAR END-OF-COURSE ADMINISTRATIONS

- Preliminary Student Results

Preliminary student results for online administrations of the May 2022 State of Texas Assessments of Academic Readiness (STAAR®) end-of-course (EOC) assessments will be available in CRS on **May 16, 2022**. Student results for online administrations of the April 2022 STAAR EOC assessments will be available in CRS beginning **May 20, 2022**. Results for paper administrations of these tests will be posted in CRS as scanning is completed.

NOTE: As results in CRS are preliminary, they should not be used for accountability.

- Resolve Student Information and Test Discrepancies

Districts must ensure student and test information in the Test Information Distribution Engine (TIDE) is current and correct by the last day of each test administration window. Districts can resolve any student and test discrepancies during an early opportunity window, which is **May 16–20, 2022**. Resolutions completed by May 20 will be reflected in districts' reports that will be provided on June 13, 2022.

Districts will still be able to resolve student information and test discrepancies during the data clean up window, **June 13–17, 2022**. Resolutions and test information changes completed during this window will be reflected in updated reports that will be provided on July 13, 2022. Any updates made after the second window will not be reflected in reports used for accountability.

- Returning Materials

All non-scorable materials for the May 2022 STAAR EOC administration must be returned to Pearson for scoring by **May 19, 2022**. For more information, refer to the [Return materials to contractor](#) section of the *District and Campus Coordinator Resources*.

MAY 2022 STAAR GRADES 3–8 ADMINISTRATION

- Returning Materials

As a reminder, the deadline for districts to ship all answer documents for the May 2022 STAAR grades 3–8 administration to Pearson for scoring is **May 19, 2022**. The deadline for

districts to ship all other testing materials, including test booklets, to Pearson for reconciliation is **May 26**. For more information, refer to the [Return materials to contractor](#) section of the *District and Campus Coordinator Resources*.

- Report Cards and Confidential Student Labels

Districts will **not** receive printed copies of STAAR grades 3–8 report cards unless they opt in to receiving paper copies by **May 20, 2022**. Districts will receive Confidential Student Labels unless they opt out of receiving labels by **May 20**. Districts may opt in to receive printed copies of report cards and opt out of receiving labels through the *Score Reporting and Label Requests* module in TIDE.

JUNE 2022 STAAR ADMINISTRATION

- OOD and OOS Examinee Registration Reminder

Districts can now register out-of-district (OOD) and out-of-school (OOS) examinees for the June 2022 STAAR administration through **May 20, 2022**, as indicated in the Calendar of Events. The STAAR OOS and OOD Examinee Registration form is available on the Texas Assessment website under [Other Testing Resources](#).

- Submit Student Registration and Test Attribute Information

Student registration, including submitting test attribute information, for the June administration will be available through TIDE from May 16–24, 2022. Students testing online must have their *Test Format* field set to “Online” in TIDE before students begin testing. For retesters, the test format will be set automatically to the test format used in the previous administration. The number of students registered in TIDE with *Test Format* set to “Paper” and specific test attribute values selected before the last day of the initial order window will be used to determine the quantity of paper test materials delivered in a district's shipment.

For first-time testers, districts must set the student's *End of Course Eligibility* field to “Yes” in TIDE. For retesters, this value and the retester flag will be set automatically on May 23, 2022, as indicated in the Calendar of Events. The *End of Course Eligibility* field may be updated using the *Upload Additional Student Fields* template in TIDE without risking overriding any other information already in TIDE for that student record.

- Initial Orders

Initial Order Materials Lists will be available in TIDE starting **May 17, 2022**, once a district has submitted student registration and test attribute information. These order lists show the quantities of materials a district is scheduled to receive in the initial shipment and are posted at the district and campus level. Order lists are updated as student registration information is updated in TIDE through the close of the initial order window. You can request additional materials not included in your initial order during the additional order window.

For questions or assistance regarding the information in this communication, contact Texas Testing Support at 833-601-8821, TexasTestingSupport@cambiumassessment.com, or via [live chat at TexasAssessment.gov](#).
