

**From:** [CAI Texas Testing Communication](#)  
**Subject:** May 2022 STAAR OOS and OOD Consolidated Report  
**Date:** Monday, April 18, 2022 1:30:57 PM

---

To the District Testing Coordinator Addressed:

This communication is to inform you that a consolidated report of out-of-school (OOS) and out-of-district (OOD) students registered to test in your district for the May 2022 State of Texas Assessments of Academic Readiness (STAAR®) end-of-course (EOC) administration has been posted to your Test Information Distribution Engine (TIDE) inbox.

The student information in the report, including the home district and campus, was submitted by the student and includes the student's name, Texas Student Data System (TSDS) ID, date of birth, phone number, and email address. TSDS IDs have not been verified.

District coordinators should register these students in TIDE with the correct TSDS ID at the appropriate testing campus prior to the testing date. Students can be registered manually using the *Add Student* task or the *Transfer Student* task under the *Student Information* panel. Students can also be registered in TIDE using a file upload. Uploading a file may override any other information already in TIDE for that student record. Some of these students may have already been transferred to the testing district for the April 2022 STAAR EOC administration. District coordinators should verify students' locations before moving them further.

District coordinators of the students' last enrolled campus are provided with similar reports and are responsible for transferring the students back to their home district by **May 13, 2022**, before the close of the May 2022 STAAR EOC assessment window.

For questions or assistance regarding the information in this communication, contact Texas Testing Support at 833-601-8821, [TexasTestingSupport@cambiumassessment.com](mailto:TexasTestingSupport@cambiumassessment.com), or via [live chat at TexasAssessment.gov](#).
