TEXAS ASSESSMENT

TIDE
Offline File Processing Thresholds

The Test Information Distribution Engine (TIDE) allows users to upload files for student registration, user accounts, and test settings. Most files are processed directly in the user interface. Depending on the file type and size (see the chart below), some files will be processed offline. In these circumstances, the user will receive an email when the file validation has been completed.

File Type	Offline Processing Threshold
Upload Users	1,000 rows
Upload Student Information	2,000 rows
Upload Additional Student Fields	2,000 rows
Upload Interim Grades	1,000 rows
Upload Test Attributes	1,000 rows
Upload Rosters	1,000 rows
Upload Requests (Appeals and Score Codes)	1,000 rows
